

Post-Event Survey

Thank you for holding an NPLD event!

NEEF will send you an email with a link to fill out the post-event survey the week after NPLD. Make sure your efforts are counted in the collective by filling it out.

Below is a table you can print out the day of your event to help record your outputs for the survey!

Question	Answer
How many acres of land were enhanced or restored?	
How many square feet of invasive species were removed?	
How many pounds of trash were collected? <i>For help estimating, per the EPA: The volume of a contractor-sized trash bag can fit: about 20 pounds of household debris, or about 55 pounds of yard waste. A 13-gallon kitchen-sized trash bag can fit: about 5 pounds of household debris, or about 15 pounds of yard waste.</i>	
How many miles of trails were restored or maintained?	
How many miles of waterway were restored or maintained?	
How many native plants were added?	
How many facilities (restrooms, visitor centers, nature centers, sports fields, etc.) were built or maintained? What were those facilities?	
How many pieces of infrastructure (such as benches, bridges, parking lots, etc.) were built or maintained? What were those pieces of infrastructure?	
How many accessibility features (ramps, boat launches, wheelchair accessible trails, etc.) were built or maintained? What were those accessibility features?	

* Please note that this is **not** the official survey, this is a tool to help you record data from your event. You will need to fill out the online survey that NEEF will send to you. For more information, visit: NEEFusa.org/NPLD
