

NATIONAL PUBLIC LANDS DAY

Observe with iNaturalist

iNaturalist is an online community for sharing nature observations, identifying species, and contributing to science and conservation data. Join NEEF's nationwide BioBlitz, observing and identifying species while you volunteer.

By sharing your observations, you will contribute to nationwide data showcasing the diversity and the collective impact of volunteer work in habitat protection and invasive species removal.

Use your iNaturalist account or sign up at www.inaturalist.org
