Climate Superstars is a 10-day online environmental challenge comprised of short tasks that get middle schoolers excited about the environment and teaches them the value of collaboration.

If your classroom completes 8 of 10 tasks, you’ll have the chance to win a Samsung Flip 2 – a 4K UHD digital flipchart!

Prepare with the Climate Superstars Educator Guide

We know fall lesson planning starts well before Climate Superstars begins in October! That’s why we are releasing the Climate Superstars Educator Guide in May. The guide gives you background information on tasks, suggestions of how to include tasks into lesson plans, and tools to explore topics further.

2020 Themes & Tasks

**How do we affect the climate?**
- Oct. 19, Learn About Global Climate Change
- Oct. 20, Observing Signs of Climate Change
- Oct. 21, Take a Climate Change Tour
- Oct. 22, Learn How Humans Contribute to Climate Change

**Where does our energy come from?**
- Oct. 23, Learn About Electricity Generation

**Understanding renewable energy**
- Oct. 26, Learn About Renewable Energy
- Oct. 27, Help Protect the Climate and Take the ENERGY STAR® Pledge

**Saving energy is for everyone**
- Oct. 29, Streaming Smart
- Oct. 30, Learn About Vampire Power
